

## **Fly High**

I am hiding in a dark  
Don't want anyone see  
That i'm drowning in tears  
Know what happened in life  
Path is not always right  
But you have to be ready

Spread your wings and fly  
It's about the time  
Let it go and live a dream  
Spread your wings and fly  
It's about the time  
To live your dream

Just fly high to the sky  
Don't let anyone to rip you apart (2x)

I know you can find a peace in life  
go ahead and break all the walls  
they won't take all control

I know that you can find peace in life  
go ahead and break all the walls  
they won't take all control

Darkness calling you out  
Don't you ever look back  
Just stay strong and be ready  
Think positive, find  
Someone who will be like  
Wind to blow'n all your troubles away  
To better place and life  
With no disguise  
No regrets the pain goes away  
Spread your wings and fly  
It's about the time  
be someone you want to be

Just fly high to the sky  
Don't let anyone to rip you apart (2x)
