

## **Affect PL & Nathalia - The One (La Da Di)**

I've woken up this morning  
I've been thinking about  
What are you doing?  
Can we spend the night?  
It's not complicated no strings attached  
Close your eyes and let me lead the way

Can you take me for a ride  
Don't you know i feel down tonight  
Is it something you just said  
I can't think take me somewhere else  
To other place where is embrace  
ladadi da da 2x  
You know i like the way you move tonight  
ladadi da da

Ref: uuuu babe  
You can be the one  
ladadi da da 2x  
You just show me your love  
ladadi da da 2x  
You can be the one  
ladadi da da 2x  
You just show me your love (tonight)

It's all i need instead  
All your promises that you will change  
Stay with me just for one night  
No regrets let's lose it all tonight

(Just) Hold me tight never let go  
ladadi da da 2x  
Prove i'm wrong and be my love

Ref: uuuu babe You can be the one  
ladadi da da 2x  
You just show me your love
